Opening remarks by Ron:

Welcome to the new RMVR.
Changes include a kinder gentler
RMVR. A customer friendly
RMVR. The board will do anything
for the folks racing. Every problem
or complaint at the board needs to be
accompanied by a solution.

RMVR will follow the Roberts rules
of order.

Treasurers Report: Bob Miller

\$55,000.00 in checking
\$10,000 in Paypal
Banquet lost \$1500.00

Complete Treasurers Report was
emailed.

Do we want to track "Free Entries"?
Some races are \$250.00, some are
\$350.00. Bob Miller will do a quick
feasibility study.

Treasurer will not distribute the
balance sheet any longer.

Annual Budget Distributed to the
board via email. Motion was made to
accept the budget as submitted.
Motion passes.

Discussion on mailing the Vintage messenger

Cost \$200.00 a month to mail.
RMVR has email for all members.
Suggestion was made to add \$50.00
to the subscription for all US mail
deliveries beginning in 2016.
Suggestion was made to contact the
44 members to inform them that
RMVR will discontinue sending via
US mail.

Discussion on keeping Hastings on the schedule

Subject was brought up to look at the
cost of bringing RMVR corner
workers to Hastings VS using
Hastings corner workers by Ron
Randolph. Randolph tabled
discussion to later.

Eligibility: Bob Darcey
All is quiet.

CAMA Report

HPR Financial results- Solid Year.

Corner station lights have been
approved and purchased.

Audi Club is still in arrears. Glen at
HPR management is trying to make
arrangements with the Audi Club to
pay.

Changes in structure in lapping day fees. Proposed shared car fees. Not a good idea. There are a number of problems including tracking cars and drivers. We are at the low end of the spectrum in pricing compared to other tracks. Fairness in terms of track time will be an issue. Things stay the same. No further discussion. 1 fee per driver for lapping. Suggestion was made to put the info into the messenger.

Marketing: Willis Wood
Andy Keller Memorial plaque was given to Roger. There was also a plaque in memory of Anita Boucher.

Drivers school flyers were printed. Willis wants to have them distributed. Anyone purchasing a counter holder just needs to submit a receipt for reimbursement.

Direct mail campaign "RMVR misses you!" Post cards will be mailed to folks that have not raced with us last year.

Car show flyers; Board members will be getting 10 of them to distribute.

RMVR branded tent and table throw. Willis is getting costs together for booth at car shows.

We've run two half page ads in Victory Lane this year. We have two more ads for Victory Lane this year.

Vintage Motorsport Two half page ads at 1/3 page ad costs.

Drivers school Poster at HPR in timing and scoring where lappers wait to get their wristbands.

Lexan poster in the pavilion for driver school.

HPR:

Glen Conser – Track Manager
Cameras are being installed at HPR. Point, tilt, zoom and fixed cameras.

Turn 3 Point tilt zoom to watch turns 1, 2 and 3. Wall at 7, 8 and 9 Two point tilt zoom cameras focused on Turn 11 Fixed camera.

Last camera will be at the gate to watch cars coming in and out. Cameras will enable control to respond faster to incidents on the track.

All cameras will have "park positions" when no input is received. Park position will be wide angle covering a general area.

Two monitors. One multi-camera, one single camera that will be switched as needed to highlight a single area. Cameras will run on battery packs and solar power.

Corner Lights Double tall 28 inches high. Double tall double wide. Turn 1, 4 and 8 and 13 will have Double wide/Double tall. All other turns will have double tall Third touch screen monitor will be at control desk. Corners will have iPads to control that corner. Standing Yellow, Blue, Flashing Yellow, Debris. Red and Black will be at Control. System is going to be installed by April 1st.

Bob Alder

RMVR makes the transition away from the home grown system to Motorsports Reg. Company is doing 600 organizations throughout the country. Online. User Name and Password. License Number and Car Number. You'll have your own garage with your cars then you decide which car then pay the fees. Similar to what we have now but now being run by third party rather than Bob and Dee. The cost will be an incremental 2% or \$4000.00 to \$5000.00 per year. Glen at HPR uses the system and loves it. SCCA, VARA and other clubs are very satisfied with the system. No startup fees. No money

changes hands until members spend money.

Motion was made to accept, seconded and passed.

OLD Business

Board approved the invoice for \$500.00 for Colorado Concours d'Elegance and Exotic sports car show.

Credit Card/Gas Card for Van driver. Bob Miller is going to look into this further.

NEW Business

Tow Truck: HPR will be handled by Glen at \$80.00 an hour. Hastings we will hire someone locally. Premier towing has verbally committed to PPIR and Pueblo. \$1600.00 per weekend. No tow truck yet for crash and burn school. The consensus is that we don't need one for crash and burn.

Len Marino is moving to Birmingham AL. Camille Fanguie is taking over as secretary

P r e s i d e n t's Comments

Mid-Bore and Big Bore. Brian Nelson and Mark Robinson have been tasked to get this group into the group family plan. They have been tasked with setting up a meeting with the group. Bob Alder will combine Mid and Big Bore lists together and will create an email group. Ron stressed the need for everyone to be an ambassador for RMVR, a driver friendly club.

Motion was made and seconded to adjourn. Meeting adjourned at or about 9:35 PM

Formula Vee School Scholarship 11th Year

The Formula Vee Group is continuing its Drivers' School Scholarship in 2015. Now known as the Formula Vee Drivers' School Scholarship, it still offers free use of one or more Formula Vee race cars for RMVR's Drivers' School at Pikes Peak Intl Raceway April 18 & 19, 2015.

The Scholarship began in 2005 when Belinda Temple donated the RCA Formula Vee #18 to be rebuilt, driven, and maintained in honor of her late husband, Bill Temple. Ten Scholarship recipients have completed RMVR's Drivers' School and six have purchased their own Vees for racing with RMVR. In October 2012, the RCA #18 was sold to another RMVR member and the Vee Group wanted to continue the Scholarship with one or more different Vees to be offered for use by student drivers.

As before, the Scholarship winner(s) will be selected from applications received by March 15 by the Vee Scholarship Committee. The Committee members are Bill Fleming, Jess Valentine, and Chad Wight. Considerations for selection include history of RMVR membership and volunteer work and likelihood of purchasing and/or entering a vintage car in RMVR events. The scholarship recipient is responsible for the Drivers' School application and fee (if any), medical eligibility, and personal safety gear. Scholarship car owners will provide car transport and support for the Drivers' School weekend. Prior Scholarship recipients are not eligible. For further information, contact Chad Wight at 719-290-0464 or cwright@q.com, Bill Fleming at 303-690-0208 or RMVR53@aol.com or Jess Valentine at 303-552-4684 or jess@microglacoste.com

Ray Jones Memorial Drivers' School Scholarship

The Historic and Small Bore Race Groups are again supporting the Ray Jones Memorial Drivers' School Scholarship. The former Ray Jones Triumph Spitfire #92 was donated by Janine Jones in 2010, prepared by donations from the Historic Drivers Group, and is now cared for by Bill Fleming and Tony Peak. The scholarship provides free use of "Abby", Ray's 64 Triumph Spitfire, for the April Drivers' School at Pikes Peak Intl Raceway. The two race groups will provide and support the car possibly including fuel and supplies as donations provide. The scholarship recipient is responsible for the school application and fee (if any), medical eligibility, and personal safety gear. Tony and Bill will prepare the car to fit the selected driver. The scholarship winner will be selected from applications received by March 15, 2015. Considerations for selection include history of membership and volunteer work with RMVR, and likelihood of entering a car with the club as a regular racer.

For further information, contact Bill Fleming at RMVR53@aol.com, Bill Rosenbach at wgroenbach@juno.com, or Tony Peak at tonypeak@centurylink.net.

Hello RMVR Drivers!

The Club needs your help as an Instructor!! We had a big turnout at last year's Drivers' School and we hope to have another good year at PPIR! We need you to share your expertise. Please send me an email (driving-instructor@rmvr.com) and volunteer to help as soon as possible, let me know if you prefer "open wheelers". I inadvertently dropped a couple of you off the list last time, and I'll try not to do that again! This year we are advertising nationally for the School, so 80-100 entries are not out of the question. We could really use 80 instructors... please help if you can! I will organize a meeting in March and provide Instructor Guidelines. Thank You Very, Very Much!! Joe Bunton, CDI

Preseason Annual Tech Inspection: How, When & Why

The 2015 race season is fast approaching and it's time to think about getting your cars ready for the season. Part of getting ready for the season is getting an Annual Tech Inspection for your race car. [Here's detailed information on the inspection process, both preseason annual tech and inspection at events.](#)

As you no doubt know, there are some big incentives to get your Annual Tech done before the season begins:

- < First, the Annual Tech is a way to have **another pair of eyes spend some quality time with your car.** Annual Tech Inspections look at more items than an event tech and they aren't as hurried. This results in better safety for you.
- < Second, the Annual Tech allows you to **avoid three weeks of busy work** by **submitting and showing your log book** (noting the Annual Tech) at the next three 2013 races and you can get an event tech sticker without the hassle of an actual event tech. How great is that?

So, get 'er done. Here's a link to the [tech inspection form which you should fill out](#) and do your self-inspection before presenting the car for inspection.

For your convenience our tech crews will be available to perform Preseason Annual Tech Inspections this spring at various locations along the Front Range. At these upcoming group tech days, our guys will do the Annual Inspection for free.

March Pre u k f g p v ø u " O g u u c i g

As I sit here typing this President's Message for the March Messenger, it is 19 degrees outside with six inches of snow on the ground and it is snowing AGAIN. A very big change from 68 degrees at this time last month. Even though it is cold outside, it is still time to get that car ready for the Spring Race at HPR on May 16th and 17th. Get those parts ordered, order those tires and get started on that "to do" list for your race car you made up last fall. You did make a list last fall didn't you?

The RMVR Board held its first meeting on February 18th at the Thornton City Hall. There were approximately 23 people at the meeting, including eleven Board members. Two major items were discussed at the meeting. The first was presented by Glen Conser, the HPR track manager, who talked about the new corner station warning lights/observation camera system that will be installed and operational by April 1st of this year. Glen laid out the plans for the new light system, how it would be installed and how the new system would operate. There will LED warning lights at every corner station that can be operated from the control trailer. These lights will be used in addition to the existing corner workers and traditional flagging operations. There is also a new video observation camera system that will be installed to monitor all 15 corners of the full race course, the straights, the pits and the guard shack. There are some cameras that can rotate 360 degrees and some fixed position cameras, all with zoom capabilities. Race control should be able to monitor every corner during a race for safety purposes. The new system installation is estimated to cost in the neighborhood of \$80,000. These funds will come from the operational budget for HPR. Installation will start in March and be completed by April 1st. The system should be operational for the RMVR May Race on the 16th and 17th. Watch for the new light system on your first lap around the track in May. The use of the new warning light system will be explained to the drivers at the first Saturday morning Driver's Meeting in May. The second topic was presented by Bob Alder. His topic was related to the installation and operation of the new on-line race registration software from MotorsportsReg. This new software will replace our antiquated and "home grown" current on-line registration software that has been maintained by both Bob Alder and Katja Stokly for the last seven years or so. It is labor intensive and not a user friendly system to operate. Bob is the main man who runs the program, and he is now trying to back away from the duties as software "magician" for RMVR. He says it is time to move on and purchase some software that is accepted, used and operated by over 600 national racing organizations. Bob and Katja are currently working on "migrating" our current membership and Club information into the new software.

It is hoped that this work will be completed so that the software will be operational by the first Spring Race at HPR in May. The Board voted unanimously to approve the move to this new on-line registration software from MotorsportsReg. It should simplify the on-line registration process and be much more user friendly once each driver creates his or her account and enters the required information during their first race registration process. All clubs that have switched to this software have raved about how great the system is to use, how user friendly it is and how great the software support is from MotorsportsReg. It should bring the RMVR on-line registration process into the 21st Century and in line with most of the other racing organizations across the country.

Sincerely,
Ron Randolph – President
RMVR 2015

RMVR VOLUNTEER NEWS

March 2015

By BJ Kellogg

As in prior years, we are kicking off the racing season with our Fire & Rescue School (a.k.a. Crash & Burn School) on March 28th & 29th. This highly acclaimed school is for experienced workers, new workers, drivers and crews. Professionals do all the emergency training. It's free to all RMVR members, otherwise there is a small (\$30) fee for non RMVR workers for the weekend. It's great for removing the cobwebs of winter, having your questions answered, and getting hands-on fire training and extrication practice. It's a great chance to sit down and think about proper flag use and their meanings, and about what workers do and why. For novices, it's a great place to start. For drivers, it is a chance to learn corner worker safety procedures and their application during racing events. Saturday's training and part of Sunday's take place out of doors. Weather could cause schedule adjustments. Wear comfortable, non-flammable (no nylon), old clothes, as practice can (and probably will) be dirty. Coffee and donuts will be available in the morning and there are lots of fast food restaurants in the area for lunch. We're still looking for a few race cars to help with extrication training. Please feel free to bring yours out and see how it's done. We'd really like some big bore cars since in the past we've mostly had small bore and formula cars. We would treat your car as if it were our own. Contact Conchi Lopez-Fay (303-453-4877) or B.J. Kellogg (303-522-6686), or send email to marshals@rmvr.com. The class will be held at North Washington Fire Department 8055 Washington Street Denver, Colorado 80229

Please join us for the 2015 RMVR Drivers' School at Pikes Peak International Raceway April 18-19. Hang out with like-minded people, make new friends and see some really cool cars. We will offer two courses; the Precision school is designed for the enthusiast who owns a performance car and has the desire to use it as intended while improving situational awareness and car control for everyday driving and the Competition program. The Competition program is intended for those who already have (or will be purchasing) an eligible vintage race car and who are seeking a full Competition License to regularly race with RMVR. This weekend will be at Pikes Peak International Raceway 16650 Midway Ranch Road, Fountain, CO 80817 Contact Conchi Lopez-Fay (303-453-4877) or B.J. Kellogg (303-522-6686), or send email to marshals@rmvr.com.
