

Calling All Formula Vees!

Veeevergnügen (like Fahrvergnügen, only better) is loosely translated as “The Pleasure of Vees”. This iconic class of open wheel racers has been active and exciting to both racers and spectators for almost 60 years providing racing pleasure to thousands of new and expert racers.

[Rocky Mountain Vintage Racing](#) is pleased to announce a 2-year festival series culminating in 2023 with the FV 60th anniversary. RMVR’s Race Against Kids’ Cancer (RAKC), presented by [GeoRipper](#) and benefitting our charity partner, [The Morgan Adams Foundation](#), will be at [High Plains Raceway](#) where these wonderful cars of *all years and vintages* are invited to gather to celebrate this class. There will be awards and prizes given to a variety of different cars and winners each year. Whether your FV is 59 years old or brand new, come and race with RMVR July 30th and 31st, 2022.

Of particular note is that all past SCCA and SVRA national overall FV champions (2014-2021) are invited to race the FV festivals this year and next *free of charge*. Yes, if you’ve won the SCCA Runoffs or are a SVRA FV Champion, you’re invited to be a guest of RMVR to race this event with us at no cost. For the rest of you FV drivers, you’ll find this event to be one of the best values in racing anywhere in the US with lots of track time for only \$385 (Friday testing is available at HPR at an additional cost and organized by the track.) This will be your chance to test your skills against whatever Champions decide to attend.

Randy Pobst isn’t an FV champion but he certainly has won many championships and will be our special pro racer guest again this year competing in a vintage FV! Randy has an uncanny ability to jump in any car and just drive the wheels off of it. Watch this [YouTube video](#) of his exploits in an FF at the 2021 RAKC. He will be just as fast and competitive in an FV, so come see how you stack up against a pro like Randy.

Also joining Randy will be Tanner Foust*, VW ambassador who has raced with RMVR in previous charity races when we had our ProAm race. He’s excited to rejoin our charity race in a FV. (*Pending finalization of his pro racing schedule.)

So please make room in your schedule for this terrific event, you won’t regret it!
